

**Name:** Zaid Jerab

**Experience:**

Dynamic and results-driven Executive Vice President with extensive and demonstrated experience within the banking industry, currently serving as the Head of Technology & Operations at Quds Bank. I have a demonstrated history of leveraging innovative technology solutions to enhance operational efficiency and drive strategic initiatives.

Beginning my career in Information Management at the Royal Bank of Canada, I have cultivated a comprehensive understanding of banking operations and financial services. I hold a bachelor's degree in finance and economics from McGill University, which has provided a solid foundation for my analytical and decision-making skills.

As a holder of both the Chartered Financial Analyst (CFA) and Financial Risk Management (FRM) designations, I possess advanced expertise in financial analysis and risk management, enabling me to navigate complex financial landscapes effectively.

In addition to my banking role, I currently serve as the Vice Chairman of Experts Turnkey Solutions, one of my leading companies in Palestine specializing in Software Development and IT Professional Services. This position allows me to further engage with the tech industry, driving innovation and excellence in service delivery.

My commitment to professional development and excellence positions me as a leader in the industry, dedicated to advancing both banking and technology sectors.
